

Technical Specifications Zankel Hall

Please note that this information is subject to updates, additions, or revisions.

Stage Specifications

Width of stage	44'
Depth of stage	25'
Height of stage	35"

Seating capacity on stage is flexible, depending on set up and pending discussion with Carnegie Hall management. It can accommodate a chamber orchestra or other small ensemble set-ups. Depth of stage affects the seating capacity in the house and must be discussed with Carnegie Hall management before final arrangements are made.

Load-In Access

Zankel Hall lobby adjacent to 881 Seventh Avenue

Seventh Avenue freight elevator: 66" wide, 93" high, and 115" diagonal

Zankel Hall stage-right and left door: 72" wide, 84" high, and 108" diagonal

Alternate Route

56th Street ground-level to Orchestra Room #1 or freight elevator. The size of the doorway to Orchestra Room #1 is 6' wide, 6'8" high, and 9'8" diagonal.

Freight elevator dimensions: 7'6" wide, 8' high, and 11' diagonal. Maximum load: 10,000 lbs. Door to elevator opening is 6' wide, 7'11" high.

Distance to off-loading area is approximately 150' to freight elevator, 35' to Orchestra Room #1.

When using this load-in area, the dimensions of the Mezzanine hallway are (57th Street door adjacent to elevator D) 80" wide, 79" high, and 96" diagonal.

Stage Access

Access to the stage is down a set of stairs. There is a disabled lift available from the Parterre-level dressing rooms to the stage level. There is a passenger elevator from the stage-door entrance at 161 West 56th Street down to both levels of the Zankel Hall dressing rooms. The passenger elevator doorway dimensions are 4'0" wide, 7'0" high, and 8'0" deep.
